CARE WITH ISSY

Why Hot Weather Can Affect People with Special Needs

Hot weather can be harder for some people. Here's why – and how we can help.

- Harder to regulate body temperature**
Some conditions or medications can make it harder to cool down.
- Sensory overload**
Heat, bright sun, noise and crowds can feel overwhelming.
- More fatigue**
Heat can cause tiredness, irritability and low energy.
- Higher risk of dehydration**
Some may not recognise thirst or communicate it.
- May impact behaviour and emotional wellbeing**
Discomfort can lead to anxiety, meltdowns or shutdowns.

Small adjustments can make a big difference.
Stay cool. Be kind. Be understanding.

Online Scams

It is important to be aware that scammers can target your child whilst online through social media, messaging apps and games. These scams often look genuine, and children may not have the digital literacy skills to question their authenticity. This can happen across lots of platforms that your child is accessing, for example Roblox or TikTok. Scams can include:

- Offering in game currency.
- Befriending your child, which can then lead to requests for money or account details/personal information.
- Phishing links, with the intention of sharing malware or requesting account details/personal information.

What can I do?

It is important to have regular conversations with your child about what they are doing online and remind them to:

- Never share passwords or verification codes.
- Speak to you or another trusted adult if they are unsure about anything.
- Ensure appropriate parental controls and privacy settings are in place.
- Talk to your child about the different scams that can appear online and remind your child to check links before clicking on them.
- Remind your child that if they do think that they have been scammed, then to tell you straightaway.

Digital Footprints

When we go online, we create a digital footprint, which is a record of what we do online. This can be by visiting websites, sharing photos, liking or commenting on other people's posts or playing games. It is important that children are aware of the digital footprint that they are creating and the lasting effect it can have. Childline provides further information about digital footprints, including advice on how to protect our privacy online:

Pinterest

You need to be at least 13 years old to use Pinterest.

Pinterest is a social media app, where users can share images and videos (called Pins). Users can browse through the images based on their stated interests, for example cooking. Users can then 'pin' (save) these images to their own boards to revisit.

There is content on Pinterest that is not suitable for young people to see. Also, did you know that there is a **messaging** element to it, so your child could be interacting with strangers? Therefore, if your child is using Pinterest, it is important to show your child how to use the blocking and reporting tools. You can find out more information, including how to set up parental controls here:
